

“Your reliable linepipe specialists”

Why should you choose East Coast Pipe Supplies for your linepipe?

If you are frustrated with your current linepipe supplier, here are 6 reasons why East Coast Pipe Supplies will be your reliable linepipe specialists:-

1. Australia's largest linepipe importer and stockist

With a stockholding in excess of 5,000 tonnes, plus stock in offshore facilities in Asia, East Coast Pipe Supplies can offer you the best price, stock availability and delivery possible.

2. Australia's only linepipe specialists

At East Coast Pipe Supplies we only specialise in linepipe which means our team of people can help you with their expert knowledge and experience.

3. Linepipe diameters from 60.3mm to 1219mm (2" x 48")

With a stockholding in excess of 5,000 tonnes, plus stock in offshore facilities in Asia, East Coast Pipe Supplies can offer you the best price, stock availability and delivery possible.

4. Full processing service for your special linepipe needs

To meet your linepipe package and project requirements as fast as possible, East Coast Pipe Supplies operates a full processing facility at our Zillmere facility in Brisbane. Our fabrication services:-

- > Custom cutting
- > Sandblasting
- > Welding
- > Protective coatings
- > Pipe fittings
- > Galvanizing
- > Threading

5. Daily delivery service

To get your linepipe to you as fast as possible, East Coast Pipe Supplies operates a daily delivery service to the Brisbane metropolitan area and Gold Coast. Fast Delivery throughout Australia and the Pacific Rim countries are also our speciality.

Delivery throughout Australia and the Pacific Rim

We can arrange all your transport needs, including oversize transport, sourcing the most economical way of getting your material to you or direct to your customer with our fast dispatch service throughout Australia.

6. Australian privately-owned company

With a long history of competitive prices and exceptional customerservice, our knowledgeable and highly experienced team is dedicated to providing you both quality products and personal assistance.

East Coast Pipe Supplies was established in 1989 in Victoria by Cam Anderson. In 1992, Cam and his family moved to Queensland to expand the business in this region.

Small beginnings to Australia's largest linepipe importer and stockist

The Company began as a specialist supplier of new and surplus small and large diameter steel pipe, supplying principally to the piling, construction, drilling, merchant and rural markets in Australia and South East Asia. We have grown from small beginnings to now the largest importer and stockist of this class of steel pipe in Australia.

Joint ventures in Asia, Europe and America

We are involved in joint ventures with Asian, European and American steel pipe manufacturers and distributors, and as such have extensive contacts in the overseas market. We are proud of our ability to source and supply piping products for our customers at very competitive prices delivery lead times.
